## AC066 INTEGRATED SURFACE LIGHT

Fully integrated into the M2100M, the AC066 offers exceptional light output of up to 900 lumens from its three high power LEDs.

The AC066 Integrated Surface Light can be manually controlled from all handset controllers. It is also possible to operate the AC066 within a PC Shoot or Matrix program, which can either be run from a computer via its interface or downloaded to a handset controller.
